Rust "ConSealer"

CORIUM 868

Rust "ConSealer"

- *Efficient transformation of rusty surfaces into paintable anti-corrosive "barrier" coating in minutes.*
- *Special non-hazardous & non-flammable formulation for safe handling and application.*
- *Absolutely easy to use – requiring much less resources as compared with application of conventional rust removers.*

**TRUST

SPECIAL FEATURES

Corium 868 Rust "ConSealer" effectively converts rusty metal surfaces to protective "sealer" coating protecting the treated areas subjected to corrosive environments.

- Corium 868 quickly transforms the rust to an adherent, inert & protective "rust barrier" on the treated metal surfaces in minutes.
- Unlike most acidic rust removers on the market, Corium 868 is completely non-dangerous / non-flammable and may be applied to de-rust metal surfaces of or near equipment in operation.
- With Corium 868, manual and mechanical jobs (e.g. chipping, wire brushing, blasting, etc.) of rust removal can be minimized.
- Corium 868 is also applicable on damp surfaces – eliminating the needs of preparing 100% dry surfaces for rust treatment.

OUTSTANDING PROPERTIES

Corium 868 Rust "ConSealer" is specially engineered to provide effective and efficient maintenance jobs involving treatment of rusty metal surfaces.

- Corium 868 is classified as "Non-hazardous" & "Non-flammable by one of the most stringent authorities regulating transportation and handling of hazardous chemicals.
- Corium 868 offers outstanding adhesion which makes subsequent top-coating easy.
- Corium 868 is highly recommended for treatment of rusty surfaces where minimal surface preparation work is practical.

USE FOR

Prior to application of corrosion protection top coatings, for efficient de-rusting, use **Corium 868 Rust "ConSealer"** to treat rusty areas on:

- Steel components
- Any other ferrous metal components
- Concrete reinforcing bars
- Gutters & roofs

For best results of corrosion protection, apply Corium 858 Aqua Primer – For All Metals and then Corium 838 "Rust Guard" Anti-Rust paint within three months of application of Corium 868.
