Anti-Corrosion Coating "Bright Silver"

CORIUM 878

## Anti-Corrosion Coating "Bright Silver"

- *Bright silver satin appearance.*
- *Reliable barrier coating for long-lasting corrosion protection.*
- *Excellent resistance to water.*
- *Super quick dry time.*
- *Easy-to-use spray application system.*

**TRUST** *Ease of Application*  
**CORIUM** *Wide Versatility*  
**FOR** *Outstanding Physical Properties*

**MAGNA INDUSTRIAL CO. LIMITED**

## SPECIAL FEATURES

**Corium 878 Anti-Corrosion Coating “Bright Silver”** is the ultimate aluminum silver paint that protects virtually all ferrous metal parts from corrosive industrial & coastal environments.

- Corium 878 is fully packed with bright aluminum “leafing” pigments that effectively protect the treated metal surfaces from rust-prompting oxygen and moisture.
- Combine with Corium 888 Zinc-Rich Cold Galvanizing Compound for the ultimate long term corrosion protection of metal.
- Corium 878 is self-priming, unlike many conventional topcoat paints, and can be applied directly onto the base metal
- Corium 878 reduces time and labor in maintenance coating.

## OUTSTANDING PROPERTIES

**Corium 878 Anti-Corrosion Coating “Bright Silver”** is a uniquely designed decorative and protective top-coat with the following outstanding properties:

- Outstanding resistance to hostile operating conditions such as water splash and heat up to 70°C.
- Corium 878 dries extremely fast - recoat can be applied in just one hour, saving tremendous idle time.
- Ready and easy to use spray application system and capable of covering larger treated areas than most conventional paints.

## USE FOR

**Corium 878 Anti-Corrosion Coating “Bright Silver”** can be used extensively in industrial and coastal areas. It is excellent for touch-ups of steel welds and pre-primed steel sections.

In particular, it is recommended to be used on top of **Corium 888 Zinc-Rich Cold Galvanizing Compound** for a bright silver finish and extra long-lasting corrosion protection.
