SPECIAL FEATURES

Magna 307 "Magnamatic" Electrode for Mild Steel makes every welder look like a seasoned professional.

- **Magna 307** is quality engineered for ease of use to provide extraordinary weldability.
- **Magna 307** is ideal for construction and repair work, particularly "on-site" and restrictive and off-position use.
- **Magna 307** offers optimum performance and will not spatter – even on wet surfaces.

OUTSTANDING PROPERTIES

Magna 307 is the superior electrode for mild steel that features:

- High tensile strength up to 84,000 p.s.i.
- High yield strength up to 66,000 p.s.i.
- Welds up to 50% faster than ordinary electrodes.
- Provides up to 80% more length deposit.
- Automatic slag removal.

USE FOR

Magna 307 (for AC & DC) is the right choice for welding all mild steels
