SPECIAL FEATURES

Omega 35 Hi-Temp MSL Grease continues to lubricate and protect your expensive equipment long after ordinary greases have "burned" off.

- **Omega 35** features Omega's super fine MSL (Megalite Solid Lubricant) additive to ensure outstanding and reliable performance.
- **Omega 35** takes on temperatures in excess of 700°C (1292°F).
- **Omega 35** is quality formulated with synthetic non-ash forming carriers.

OUTSTANDING PROPERTIES

Omega 35 is the high-temperature MSL grease that:

- Lubricates and protects parts subjected to up to searing heat temperatures.
- Will not burn off to form abrasive ash or carbon residues.
- Has super penetration power and "self-spreads" over applied surfaces.
- Provides many advantages over ordinary high-temperature solid lubricants.

USE FOR

Omega 35 is quality engineered as a general-purpose grease for virtually every type of application where extreme high heat is unavoidable.

Use **Omega 35** in:

- Oven Cars • Brick Kiln Cars • Steel Mills • Baking and Cooking Ovens • Foundries • All Slow-Moving, High-Temperature Applications.
